Athenian education. In ancient Athens the situation was very different. Athens too had state-provided military training, but only for two years and only in a boy’s late teens; this was a period of military service, not a complete education as in Sparta. Any training that Athenian children received in reading,
writing, literature, music, etc.

Philosophy of Education is a label applied to the study of the purpose, process, nature and ideals of education. It can be considered a branch of both philosophy and education. Education can be defined as the
teaching and learning of specific skills, and the imparting of knowledge, judgment and wisdom, and is something broader than the societal institution of education we often speak of.
